Green Infrastructure Strategy Consultation

Consultation period 4 January - 1 February 2010

Greenspaces for a better community. Tell us your views!

It is important to remember that this questionnaire must be completed in conjunction with the Green Infrastructure Strategy consultation document.

South Oxfordshire District Council is consulting on its newly developed Green Infrastructure Strategy (GI Strategy). Put simply, for us Green Infrastructure is a series of green spaces that can have a variety of different functions across the district. The strategy is a way of tying together all of these different spaces across the district, in a coordinated manner. Helping us to deliver sustainable communities and improve the quality of life of our residents.

This questionnaire is your opportunity to get involved in the development of the strategy! Remember, you don’t have to answer all of the questions.

Copies of the GI Strategy are available on our website www.southoxon.gov.uk/evidence as well as hard copies from the council offices, town and parish councils and libraries and one stop shops across the district.

Please be aware that all comments will be publicly available at the Council’s Offices and on our website. Personal information is used for council accessibility monitoring purposes only and will not be made public.

If you have any further questions please do not hesitate to contact the Planning Policy Team, by telephoning 01491 823725 or by e-mailing planning.policy@southoxon.gov.uk.
Interest group

Q1) Before completing the questionnaire, please tell us what interest group you belong to?
- Town/Parish Council
