Your bins, how to use them, and everything you can recycle from your doorstep

**Recycling bin**

**What goes in it?**

- Tin and steel cans, like drinks cans, soup and bean tins
- Glass bottles and jars, any colour
- Aerosols, like deodorant sprays
- Fruit juice and milk cartons
- Food trays – plastic AND clean foil
- Paper and card, like phone directories, newspapers and magazines
- Plastic bottles, bags and pots like shower gel bottles, yoghurt pots and margarine tubs
- Household batteries – put them in a clear bag on top of your bin
- Old, tatty clothes and textiles – put them in a tied carrier bag next to your bin

**Important!**

Recycling will only be collected if placed in your bin loose or in a clear bag. No nappies, food waste or other non-recyclable items will be collected. Any extra recycling can be placed in a cardboard box or clear sack next to your green bin.

Give us a call on 03000 610610 if you don’t have room in your rubbish wheelie bin.
Food waste caddy

**What goes in it?**
All unpackaged food - cooked, raw, stale, as well as:

- Any scraps or leftovers from your plate
- Bones and eggshells
- Tea bags and coffee grounds
- Cooking oils, lards and fats. Cooking oil can be collected from a 1 litre plastic bottle inside the food bin.

**Lining your caddy?**
You can use plastic bags, compostable bags or newspaper to line your caddy - or simply put your food waste straight in.

If you're missing any of these bins, they're broken or haven't been emptied, give us a call on 03000 610610 or visit www.morerecycling.co.uk. We come and collect your bins around 7am, so make sure they're out before then - it's okay to put them out the night before. If we miss your collection for some reason, call 03000 610610 by 5pm the following day. Visit www.morerecycling.co.uk for more information.

**What happens to this?**

- We sort it into the different materials and send this to companies to recycle into new products.

**What happens to this?**

- We process it at a facility in Oxfordshire, and farmers then use it to fertilise their crops. It also generates enough electricity for 4500 homes!

**What happens to this?**

- We process it at a facility where it's used to generate electricity. It also means 95% of Oxfordshire's general waste no longer goes to landfill.
