Unlike the larger District and County Councils the Parish Council receives no funding from Central Government or Business Rates, so the net cost of our services is funded entirely from the council tax payers of Chinnor.

The small element of your council tax which comes our way, based on a Band D property equates to £ 121.69 per annum which is £2.34 per week.

The Parish Council promotes the interests of Chinnor in its representations to other bodies and works in partnership with the District Council, County Council and other agencies to provide and supplement local government services within Chinnor. The Parish Council is consulted on all planning applications made in respect of properties in Chinnor and written representations are submitted.

Meetings of the Parish Council are open to the press and public and all meetings are publicised on the Parish Council's notice boards and web site – [www.chinnorparishcouncil.org.uk](http://www.chinnorparishcouncil.org.uk). There is an opportunity for members of the public to raise any comments or queries that they have with the Parish Council. It is helpful if you contact us prior to attending the meeting so that the Council is better informed and able to help you.

To keep up to date with Parish news residents are encouraged to read the Chinnor PC newsletter. This can be emailed to you or downloaded from the Parish Council Website.

Chinnor Parish Council works within our community to support local services and groups. We have been able to facilitate grants that directly go to organisations and services that provide support for our population.

We also have a number of facilities to support the community, such as the Community Pavilion, Hill Road Recreation Ground and Whites Field Community Hall. As with all buildings, it is important for us to maintain them; plan for future repairs; understanding future needs; and consider the legacy we leave our future generations. To do this responsibly and diligently, we have a strategy in place to plan for the future of those facilities, as well as ensuring we are able to respond to any immediate needs and repairs. Our aim is to ensure they remain safe; beneficial and accessible to our community; and value for money. Therefore, we avoid unnecessary expenditure and overdevelopment.
