20 July 2022

Dear Sir James,

I am writing on behalf of South Oxfordshire Council regarding the availability of information on sewage treatment capacity and the volume of sewage discharges.

Currently, local authorities are not told of the specifics regarding sewage treatment capacity and whether any proposed development will lead to an increase in discharges. We are, therefore, calling for sewerage undertakers to be required to make public up to date information on sewage treatment work capacity and the volume of discharges for all treatment works by the end of 2023.

I look forward to receiving your response.

Yours sincerely

**Councillor David Rouane  
Leader of the Council**
